

Umps Button Wall Mount

Product datasheet | Australia

A two-part case that holds an Umps Button on the wall, so an alert can be raised from a fixed point such as a bathroom, bedside or hallway.

Button shown; not included.

Product specifications

Model	CA02-AUUM/01
Compatibility	Holds one Umps Button (not the Umps Fall Detector); requires an Umps Home Alarm Hub
Dimensions	49.5 x 71 x 18 mm (W x H x D)
Weight	13 g as supplied; excluding Umps Button
Colour	White
Mounting	Double-sided adhesive pad on the back plate, or screw-fixed
Screw fixing	Two 6g countersunk screws through the 8 mm x 4.5 mm slots in the back plate, plus wall plugs or anchors to suit the wall type
Supplied	Front cover and back plate, with the wall adhesive pad fitted; Button and screws not included

Materials

Cover and back plate	ABS, Polylac PA-765C
Wall adhesive	Die-cut 3M VHB 4945 double-sided acrylic foam tape, 1.1 mm thick

Use and care

The adhesive pad bonds best to a smooth, clean, dry surface and is intended to stay in place permanently; removing it can lift paint or damage the wall. Use screws where the surface is textured, porous or newly painted, or the wall mount may need to move later. Position it within easy reach, including from floor level.
